

## **Genetic studies in Barbet**

### **Information for Veterinarians:**

Please collect 3-5 ml of blood in a purple topped EDTA-tube  
Label the tube with the following information: Dog's register name, registration number, breed and date

Invert the tube (8-10) times to prevent clotting

Ship to the address at the bottom of this page. Please let us know to expect your sample by email in advance (ranja.eklund@helsinki.fi)

Two to three day delivery services are suitable. However, schedule the shipment so that it will NOT arrive during a weekend or holiday period

All information regarding the dog's or owner's names will be kept confidential. Results will be released only by the owner's consent.
